

Our Commitment to Your Safety

Vita Soin et Services — Lorena Ybarra, Owner

Last Updated: June 5, 2026

At Vita Soin et Services, the safety, dignity, and well-being of every client is our highest priority. We have built our service model around rigorous standards for caregiver quality, data protection, and service reliability — because the people in our care deserve nothing less.

Caregiver Screening & Qualification

Every caregiver employed or contracted by Vita Soin et Services undergoes a thorough vetting process before being placed with any client:

- **Criminal Record Check:** All caregivers are required to provide a current criminal background check, including a vulnerable sector screening.
- **Professional References:** We verify professional references and prior employment in caregiving or healthcare roles.
- **Identity Verification:** Valid government-issued identification is required for all caregivers.
- **Qualifications Review:** Relevant certifications, training, and experience in elder care or personal support work are reviewed and documented.
- **Ongoing Training:** Caregivers receive regular training in elder care best practices, dementia support, mobility assistance, and emergency response.

Service Reliability & Continuity

Vita Soin et Services is committed to providing consistent, dependable care. Our service model is designed to minimize disruptions and ensure every client receives uninterrupted support:

- **Backup Coverage:** In the event that a scheduled caregiver is unavailable, we have protocols in place to provide qualified replacement coverage with minimum delay.
- **Supervisor Oversight:** Care coordinators regularly check in with clients and families to ensure satisfaction and address any concerns promptly.
- **Incident Reporting:** Any incidents, accidents, or changes in a client's condition are documented and communicated to the family or authorized representative immediately.
- **24/7 Contact:** Families can reach our team at any time for urgent matters related to their loved one's care.

Data & Privacy Security

Client information is treated with the strictest confidentiality. We apply technical and organizational safeguards to protect all personal and health-related data:

- Client records are stored in secure, access-controlled systems accessible only to authorized staff.
- All caregivers sign confidentiality agreements as a condition of engagement.
- Physical documents containing personal information are stored securely and disposed of by secure shredding.
- We comply fully with Quebec Law 25 and PIPEDA regarding the collection, use, and protection of personal information.
- In the event of any data breach, we will notify affected individuals and the Commission d'accès à l'information (CAI) as required by law.

Home Environment Safety

Our caregivers are trained to assess and respond to risks within the home environment:

- Identifying and reporting fall hazards, unsafe conditions, or changes in the client's living environment.
- Following proper hygiene, infection control, and medication handling procedures.
- Respecting each client's home, belongings, and personal space at all times.
- Following emergency protocols and contacting emergency services or family members when required.

Insurance & Liability

Vita Soin et Services maintains appropriate liability insurance coverage for the services we provide. Our caregivers operate under our supervision and within the scope of their assigned duties. Clients and families are encouraged to contact us directly with any concerns regarding liability or coverage.

Why This Matters

Home care is a relationship built on trust. When you welcome a Vita Soin et Services caregiver into your home, you deserve complete confidence in their character, competence, and commitment. Our safety framework exists to give you and your family that peace of mind.

- Your loved one is cared for by screened, trained, and supervised professionals.
- Your personal and health information is protected at every step.
- Our team is always reachable and accountable.

Questions?

If you have any concerns or would like more information about how we ensure client safety and service security at Vita Soin et Services, please contact:

Important Notice

The safety commitments described in this document apply to services delivered directly by Vita Soin et Services and its authorized caregivers. Once a service session has concluded and the caregiver has left the client's home, responsibilities for the client's environment and well-being return to the client and their family or designated support persons. For emergencies, always contact 911 first.
